In things essential, unity;

in things doubtful, liberty;

in all things, charity.

Imitation of Christ; Book I, Chapter 3

Cephas Institute is dedicated to proclaiming the power and truth of "The Rock", the Lord, His Popes, His Church, by educational seminars and events. One of the tragedies of our time is the loss of sound and exciting instruction in the faith. We are available for presentations to your community of the faithful, and to those not yet formed or ready for a decision for Christ, but seeking truth. Our programs are based on sound doctrine and emphasize Holy Scripture, the Early Church Fathers, Papal encyclicals and the authentic and dynamic history of Christendom, including its legal, scientific and cultural history. Our presentations in relation to science and faith (e.g. Intelligent Design, Creation Science, ethical questions in biology and medicine, human sexuality, etc.) present the very best scientific evidence and information joined to sound doctrine. Our presentations in the theological teaching of the Church will be presented by priests faithful to the Magisterium and the dogmatic and doctrinal truths of the faith, priests who are likewise excellent speakers for the audiences.

The main emphasis of the work of the Institute will be the social, theological, and human life encyclicals and apostolic letters and their direct application to our daily lives, work, family and the cultural crisis. Any special interest or request for presentation may be provided.

Joseph M. Mauceri, M.D.
President, Cephas Institute
